

Email Signatures

for Office 365,
Exchange
and Outlook

Exclaimer's email signature management solutions allow you to centrally design and manage signatures for all users in your organization. Maintain total control over all signatures with consistent branding, marketing content and more.

Founded in 2001, **Exclaimer** is the recognized global market leader in on-premises and cloud-based email signature software and solutions for Office 365, Microsoft Exchange and Outlook. It has over 50 million users worldwide with some companies holding licenses for over 100,000 users.

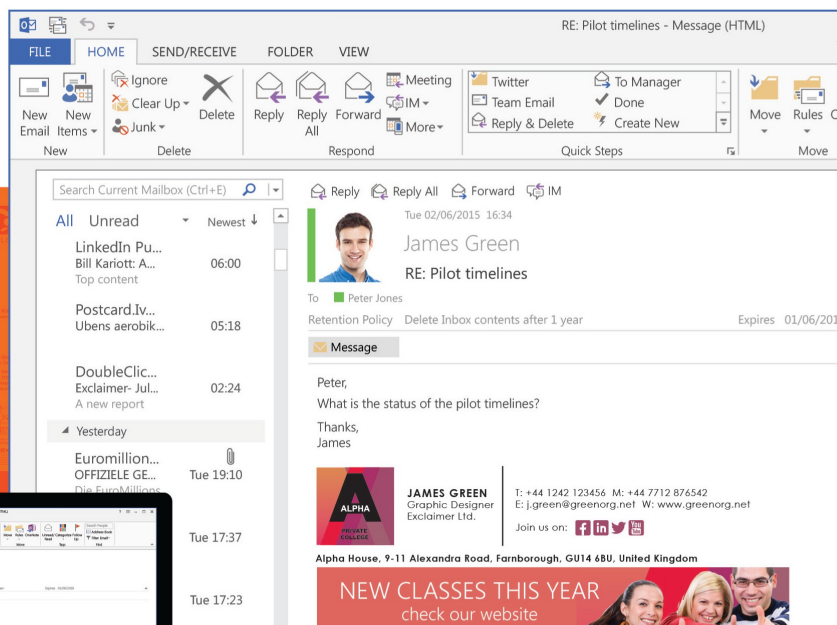

Exclaimer solutions are regularly recommended by Microsoft MVPs (Most Valuable Professionals) and have a strong reputation within the Microsoft community. The company has been the recipient of multiple awards within the IT sphere, has won a Queen's Award for Enterprise and has successfully achieved the ISO 27001:2013 Certification for its cloud-based Office 365 signature management service.

Exclaimer Cloud – Signatures for Office 365 marks the new standard for designing professional email signatures for Office 365.

All Office 365 users get a full, dynamic and professional email signature when sending from every device, including mobiles and Macs.

Exclaimer Signature Manager Exchange Edition is the award-winning signature software solution for Exchange 2016, 2013, 2010 and 2007 that automatically adds professional email signatures to all corporate mail, even on mobile devices.

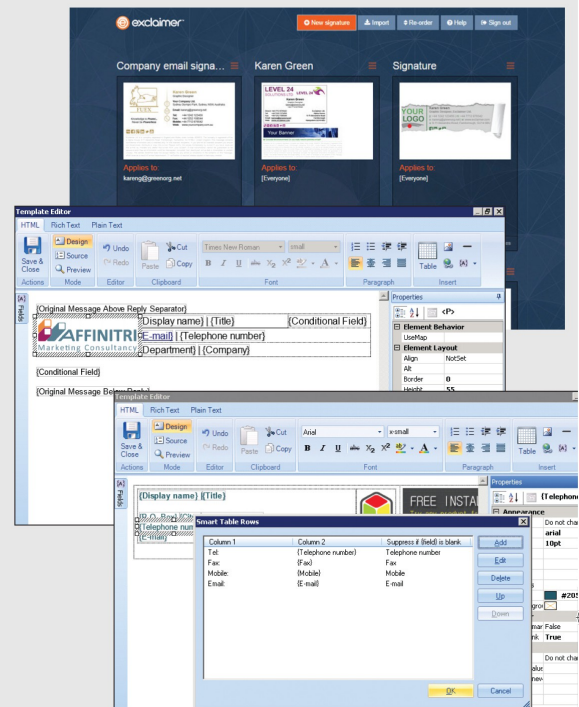

Exclaimer Signature Manager Outlook Edition allows for distribution of email signatures directly to an end user's Outlook client. As a result, it adds signatures to Outlook and OWA, letting users choose their signature as they type their message.
